

70

VINTAGE

Jan,
 I had a bitcher
 time since you came
 if it wasn't for math, study
 hall and pe. I would have of never
 met you. I had a bitcher time
 ever since you came. Hope to keep it that
 way. God Bless you in so many ways. 

Jan,
 It's been great having
 you for 3 C hope for
 this summer. I hope
 you might visit again
 later

I won't
 Bangin' you about
 cut your nick and your ad good
 and thank too
 Dorian

Jan,
 While had a great time
 in when and you
 really made out for
 it with last minute
 things on your
 list. It's been a lot
 of fun. See ya
 soon

Jan,
 It's been fun
 having you here
 this summer, good
 luck next year and
 the year to come
 24, 1983
 Seib, 73

Jan,
 I hope you
 are having a
 great time
 with summer
 vacation. Love
 you all.

Leigh High School

San Jose, Calif.
Volume 8

The landing of the Apollo Astronauts on the moon is a symbol of a new era which is effecting the lives of everyone. We are living in this new era and when our time comes to take an active part in it we must be prepared to help it move forward. There are many adjustments that we need to make while young and this is the time to start considering how and when we will make these adjustments. For some people this will be easy, for others difficult. Some will rebel others will make the adjustments without a second thought, if everyone tries to understand something of what is transpiring there will be a chance for unity among our people.

In Dedication To A Man Who Strives For Quality

This year we dedicate the Yearbook to Mr. Horn the Director of Student Activities. Sometimes students don't know how school activities get started and just accept the fact that we have them. The 1970 Vintage Staff wishes that everyone knows that our Activities Director makes sure everything gets done concerning a school activity and really cares about making each activity as interesting as possible. He is a man everyone should get to know.

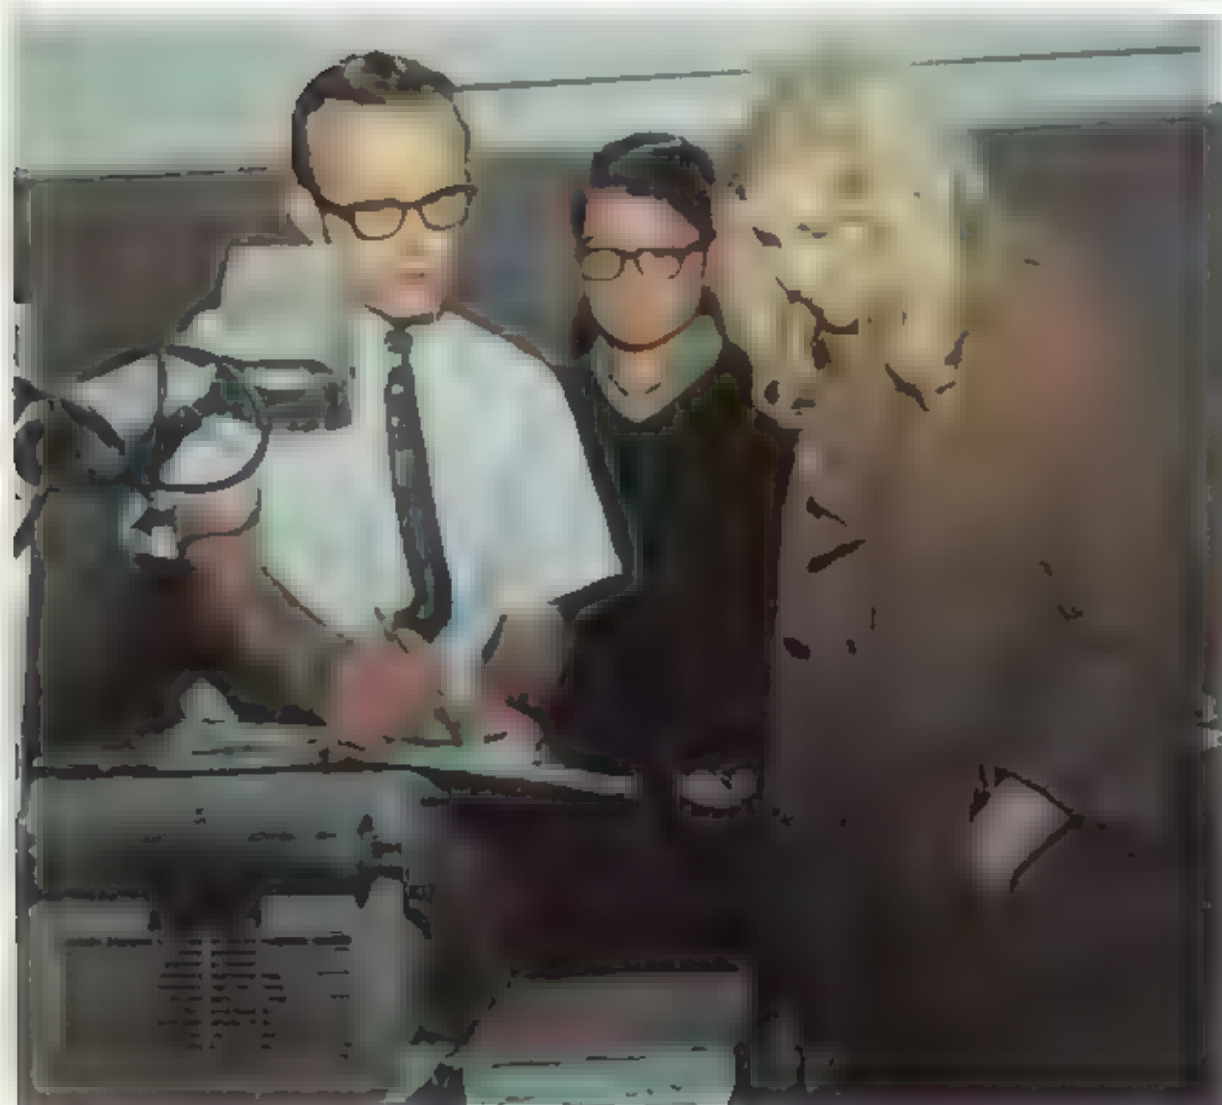

With the many problems that face the youth of today some are bound to come out at school. It is important for each student to learn how to deal with each problem, whether they learn by trial and error or by understanding what someone else tells them. No one really knows which way is truly best so both ways are always being tried. That is one thing we must always do, keep trying, because you'll never learn if you don't.

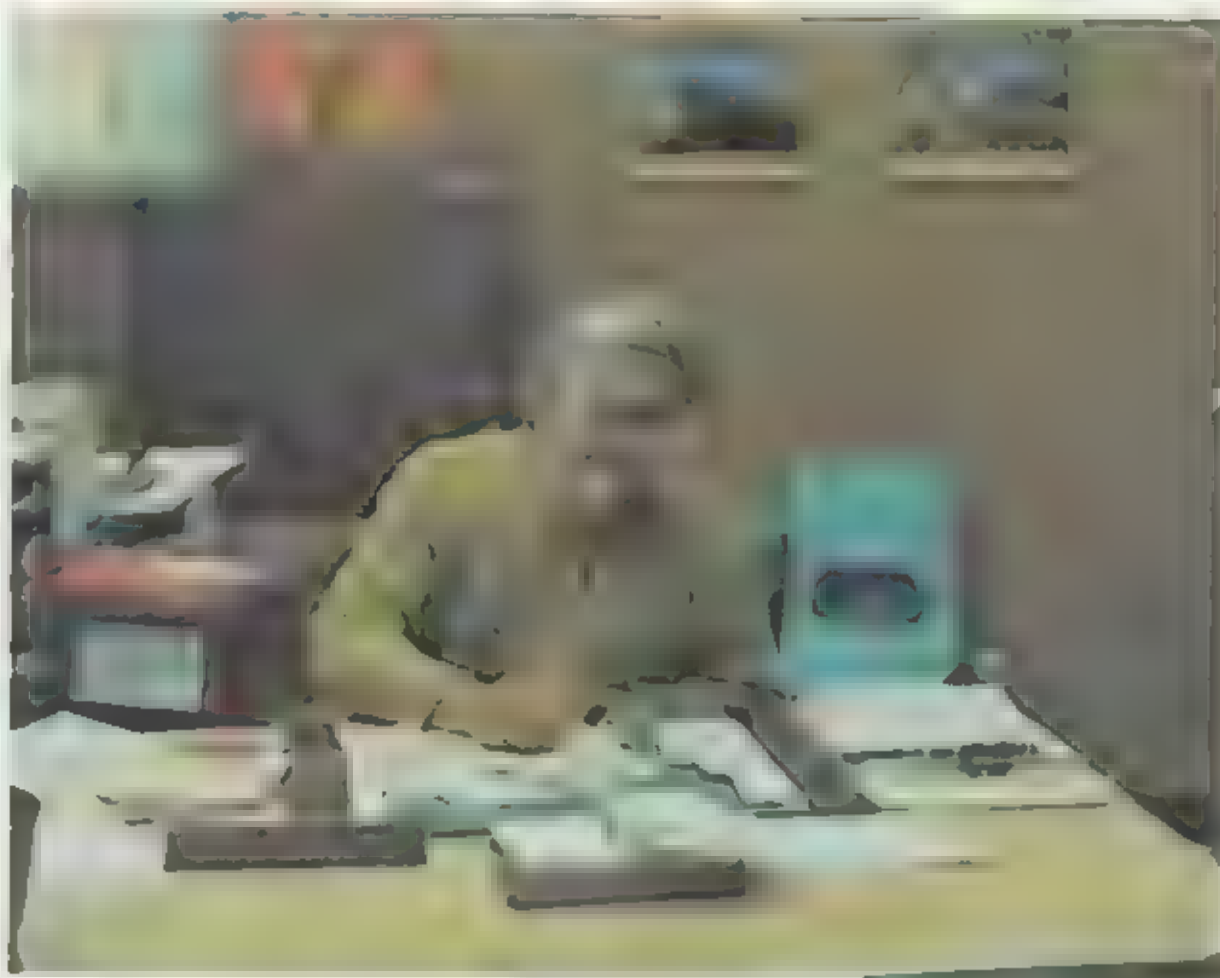

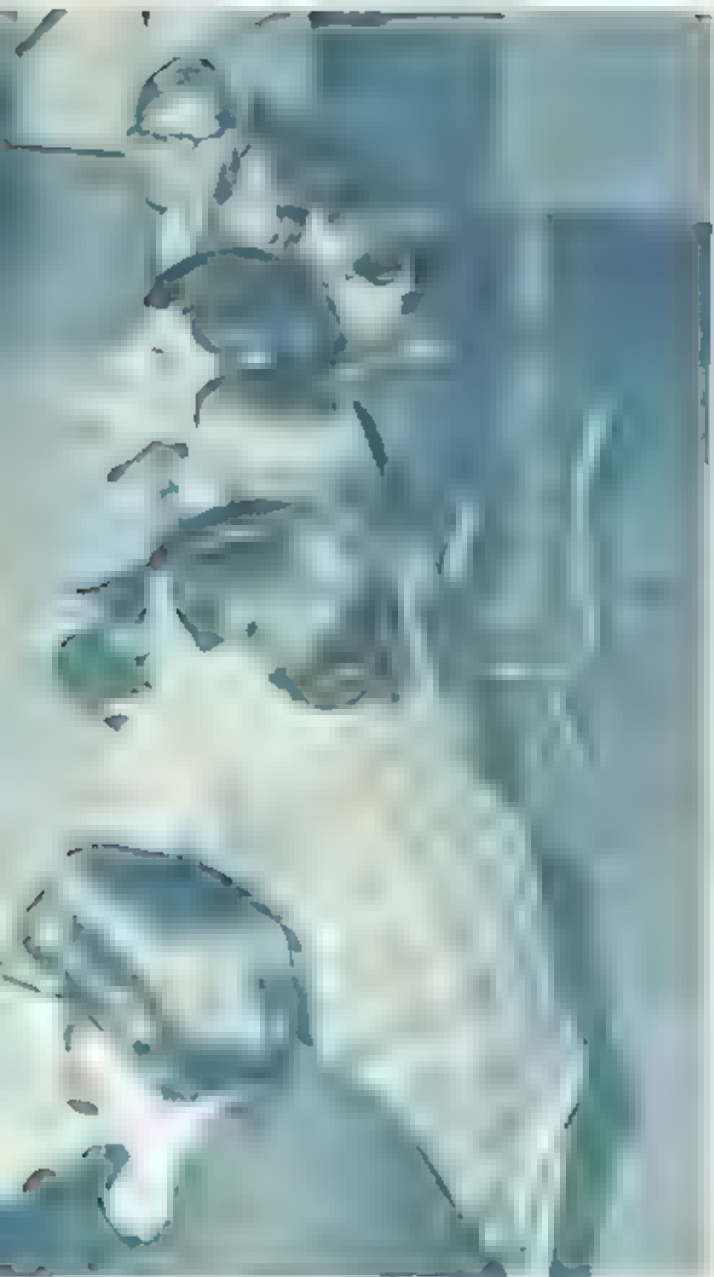

Many Avenues Have Been Opened To Help Bring Students And Faculty Together

Mr. Fowler talks with students, fewer students per counselor, tutorial program, and more individual help

So Many
Students
Yet Still
Time for
Individual
Consideration

Parents
and
Students
Co-operate
to Achieve
a New
Dress Code

The Decision Makers Go to Students for New
Ideas and to Find Out What They Want
Changed or Improved

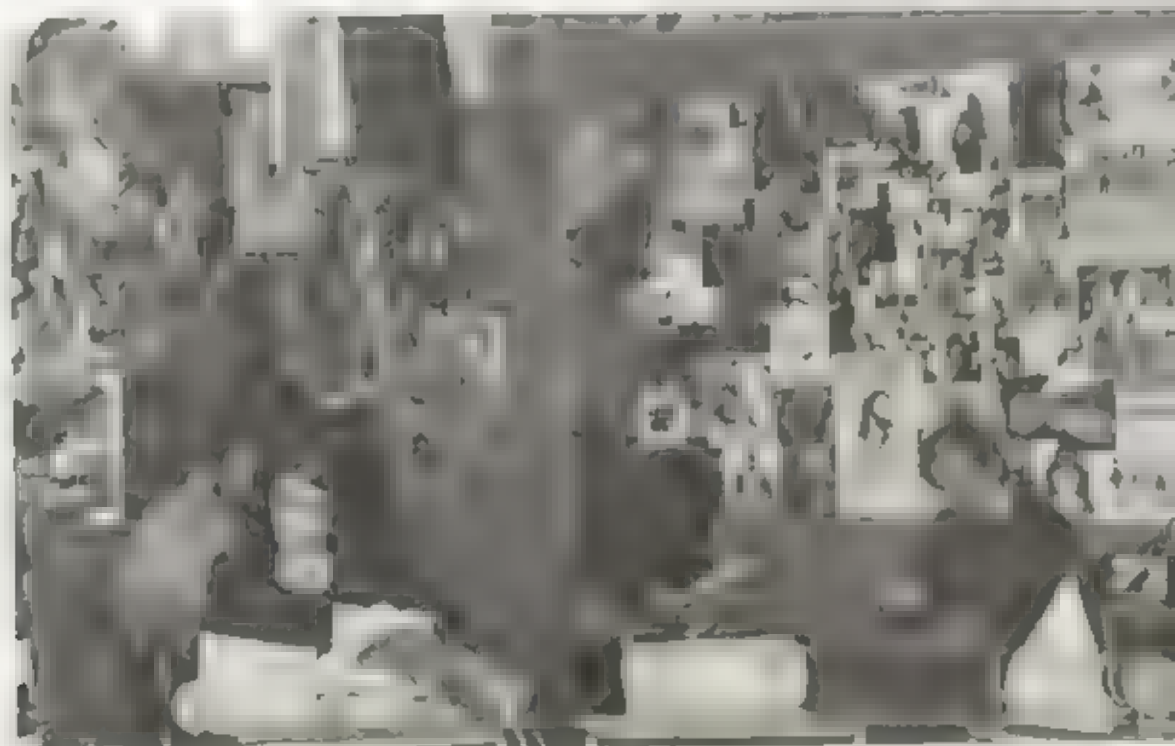

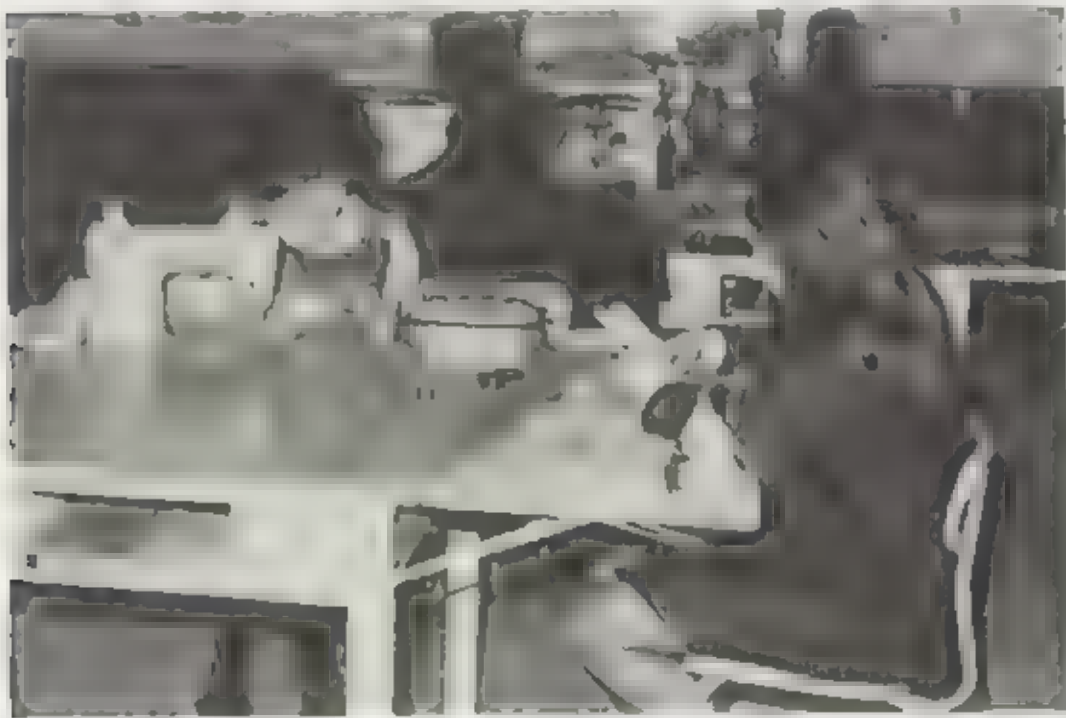

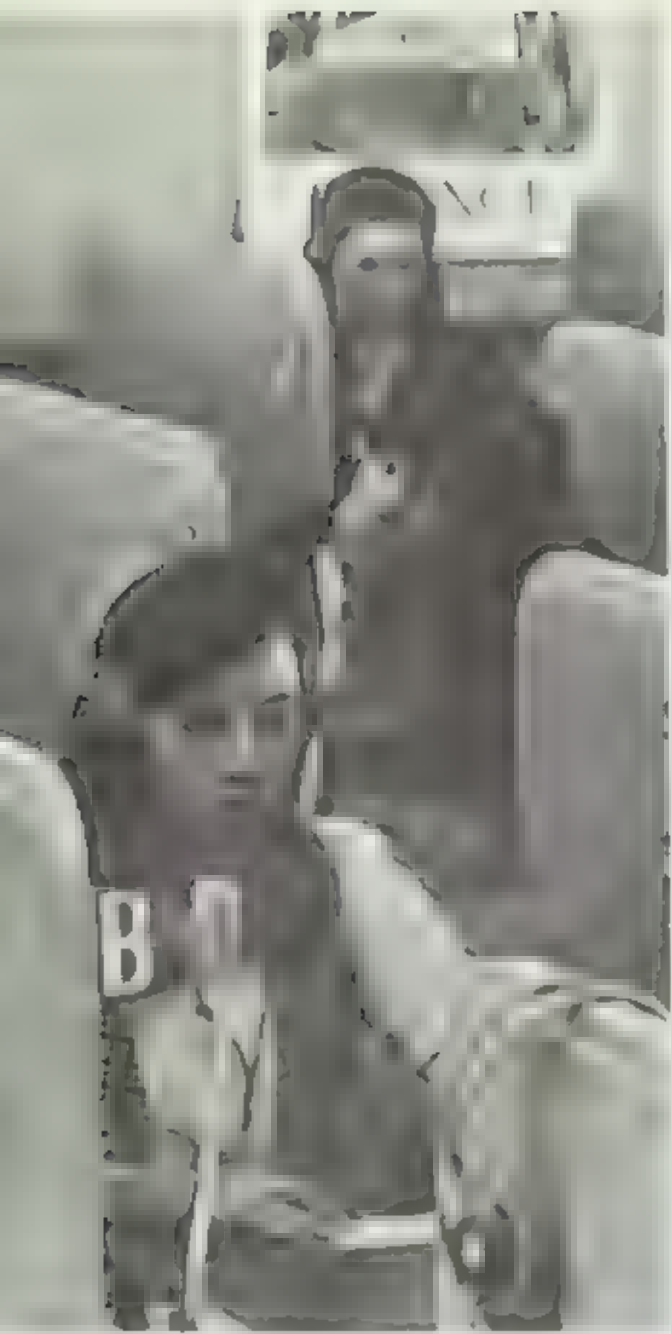

As a result of these changing times many personal luxuries have been sacrificed for automation, and the more efficient computers, but we must never lose the more human values. We must realize that change is always present and recognize the fact that it can be a creative process that will benefit man during the impersonal times that may lay ahead. We must also realize that even though this is a time of computers people still need to console each other and seize every opportunity to advancement that is offered, yet keeping in mind that we must remain as individuals not as a mechanized puppet

Almost 90% of a student's time on campus is spent in the classroom. There, he practices basic skills, encounters new ideas, and learns to communicate.

ACADEMICS

Math And Science: Key To The Future

Whether the student's aims be sending a rocket to Saturn or merely calculating his weekly budget, he is prepared by the Mathematics and Science departments. With the aid of a Wang computer he tastes of the technology of tomorrow, while chemistry, physics, and biology laboratories allow him to discover basic laws of nature.

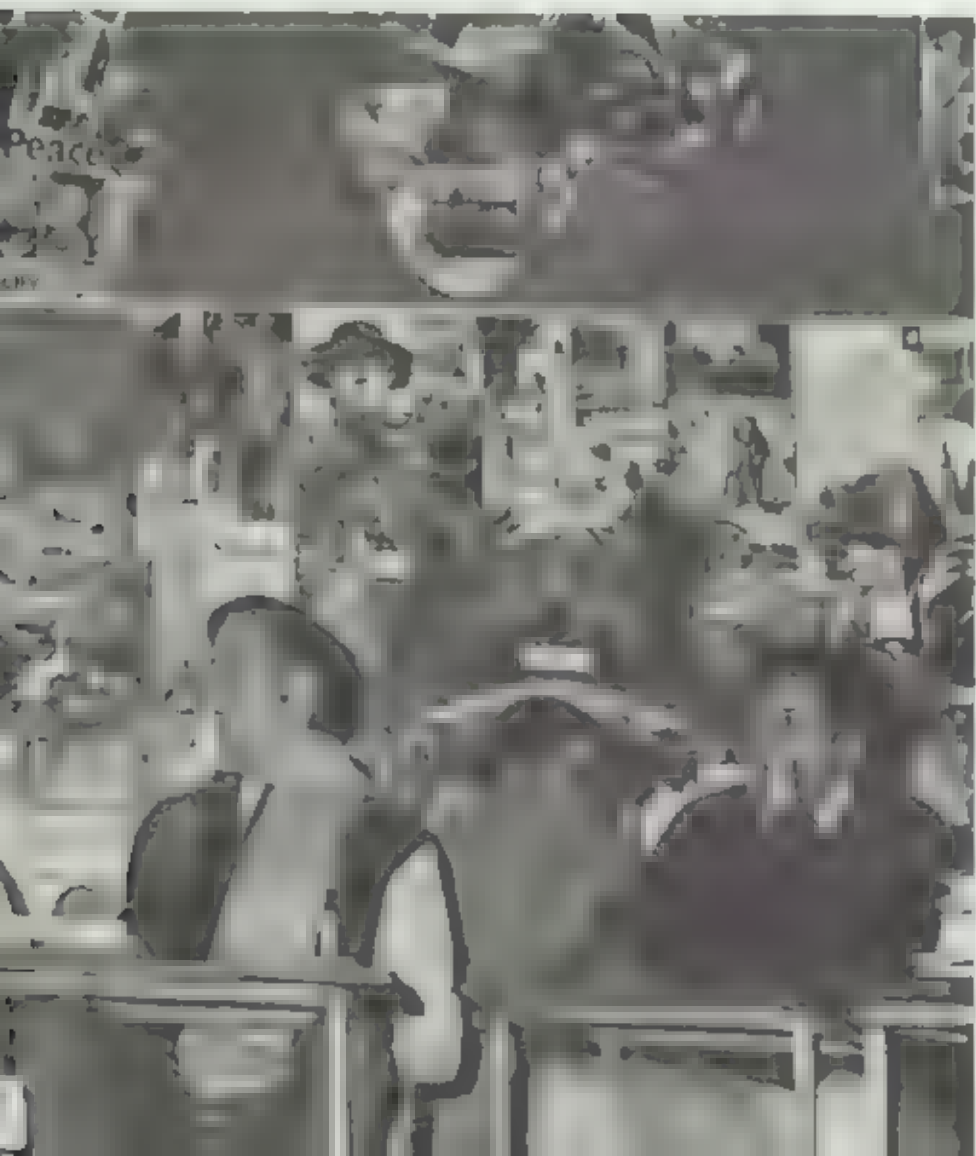

Speaking, Feeling,
We Strive To

And Learning, Communicate

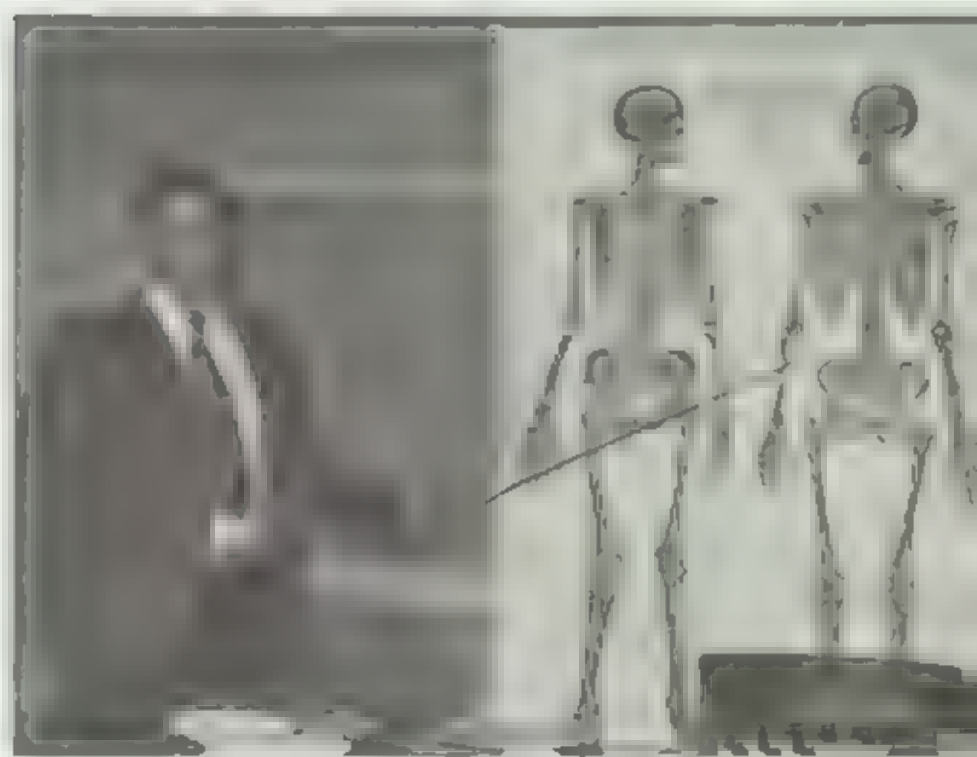

In both English and Social Science classes the student contemplates new ideas and discusses them. In Literature and Drama classes he reads the ideas of other men, while in Public Speaking and Journalism he expounds his own. World Civilizations, American History, and American and Comparative Governments give him the opportunity to see the results of other men's ideas, and to relate them to himself and his world.

Special Facilities Add Interest

Machines that a generation ago were relatively unknown in the schools are found in today's classroom. In driver-trainers the student is able to practice the mechanics of driving within the perimeters of his classroom. Language labs provide the opportunity for him to hear the language he studies more frequently, while reading labs implement the English program.

Students Create Their Own Business World

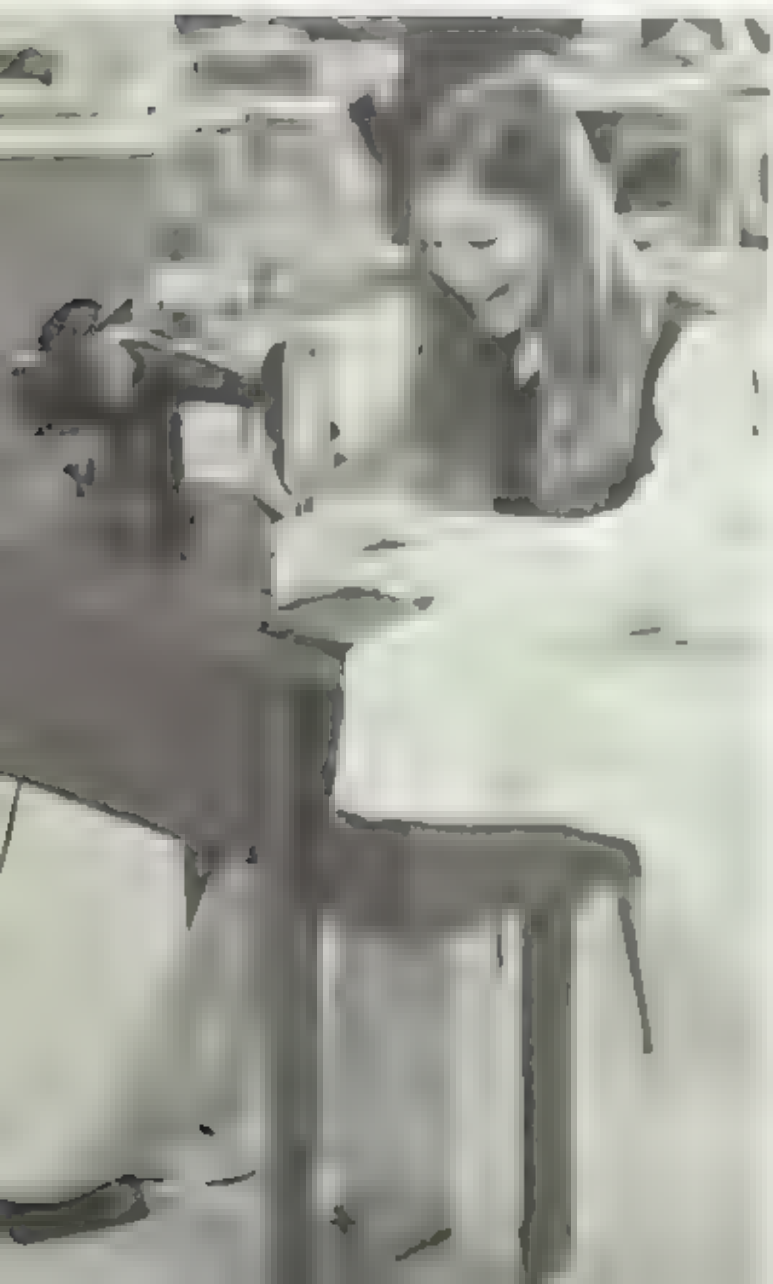

Typing, Shorthand, and Office Machines are courses available to the business student. In these classes they acquire knowledge of the procedures of the business world.

Students Acquire Practical Skills

Whatever the career that the student pursues, basic domestic skills such as cooking, and sewing for girls, and those in wood, metal, and auto for the boys are not only useful, but necessary. Mechanical Drawing and Arts and Crafts offer an outlet for creativity which aids the student throughout his life.

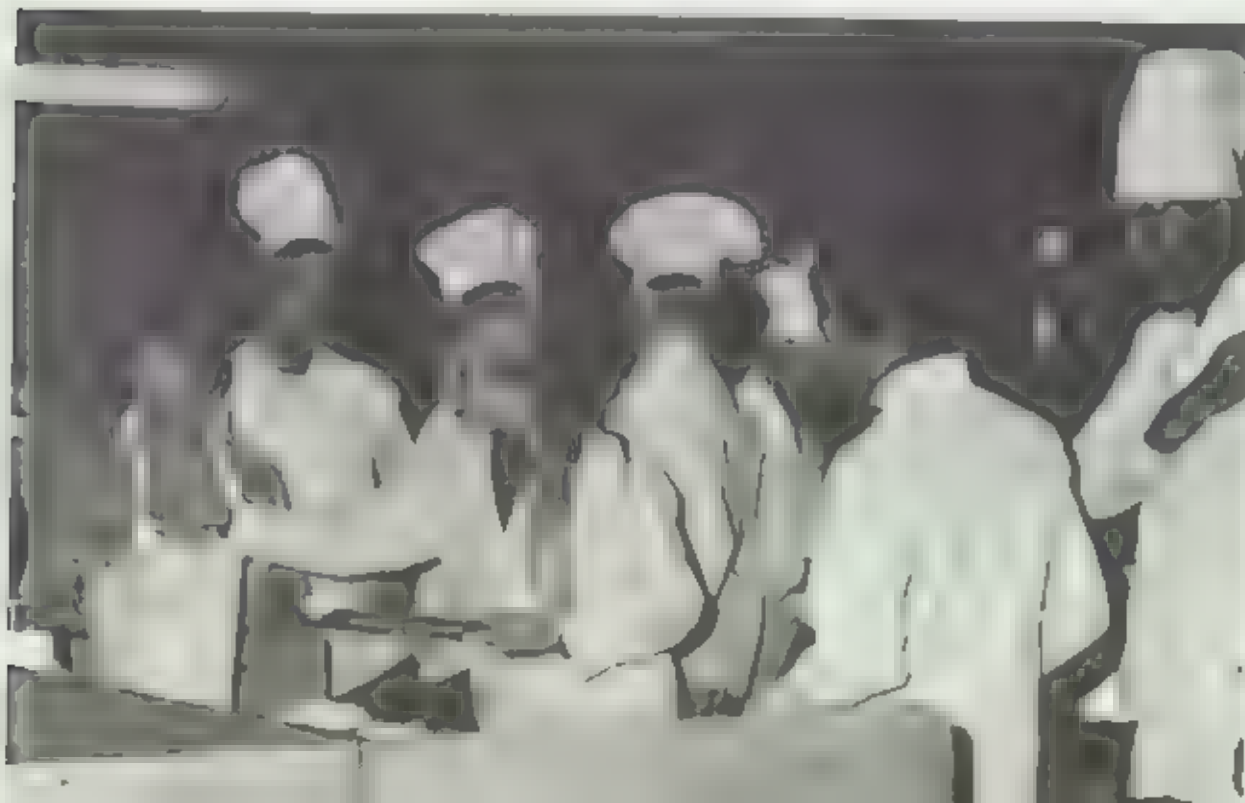

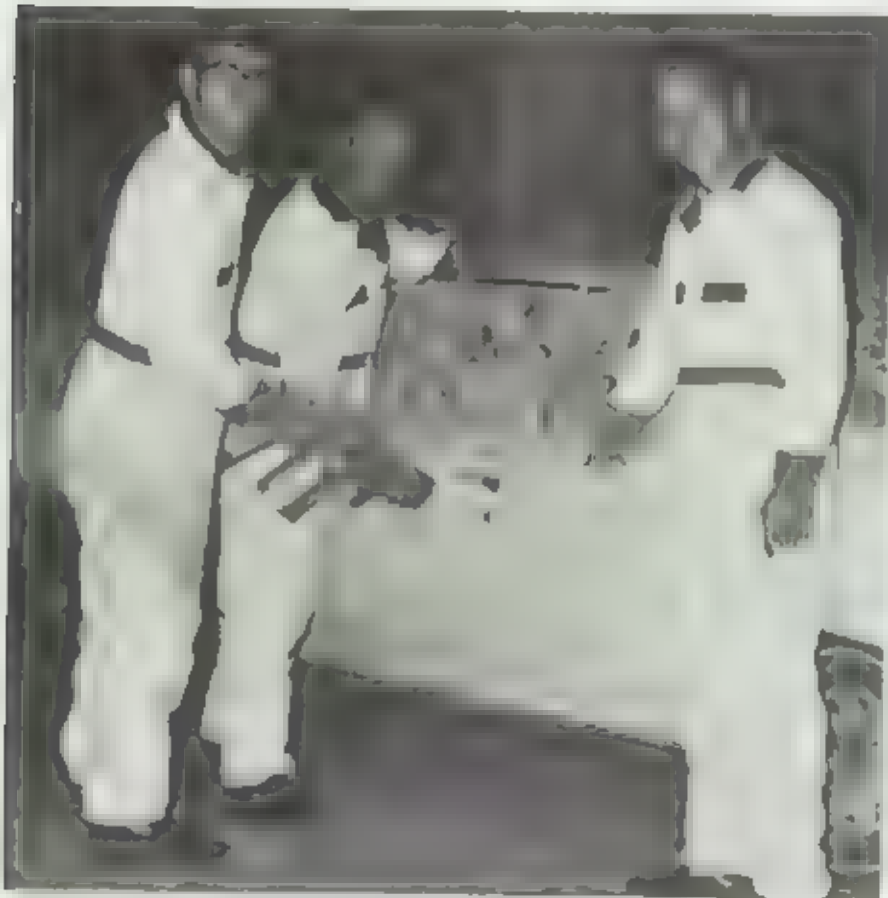

Building For The Future

The newly established vocational center teaches the student a practical skill. Many varied programs offer a wide range of training. The Coatings Laboratory, for instance, prepares him for industrial laboratories, training the student to be an assistant to a graduate coatings chemist. Electro-Mechanical Technology covers the basic concepts, equipment, and fundamental concepts of mechanics and applied physics. Machining teaches how to be a machine operator, a maintenance machinist, or a general machinist. The students also learn to read blueprints, do some basic welding or metallurgy, and other vital skills that aid their chances of advancement. Food Preparation and Health Services are offered for basic knowledge of commercial cooking, baking, patient care, keeping records and other related topics

Varsity Defeats MAIE Faculty...

Female Faculty Takes on G.A.A.

Leigh Welcomes Its Foreign Exchange Students

Søren Dalgaard, Maria Maia, Roberto Maia

Søren Dalgaard
Denmark

My name is Søren Dalgaard. I am 17 years old and a senior. This has been a year of great changes for me here at Leigh. While walking around school, I have followed the many events which have taken place on campus with great interest. Before coming here, I had never lived in an urban area for more than a few days. I used to live on a farm and went to school where there were 350 students from third to twelfth grades. So Leigh was certainly different with over 2000 students and all its various activities, which we do not have in Denmark.

My first days at Leigh were confusing. I had never heard of a dress code before, and the first day I was told to get a haircut, which I didn't think I needed. I am very glad that it has been changed. It did not take long before I found out that my teachers and classmates were very friendly and helpful whenever I needed them. The student-teacher relationship is very good. I do not think I have seen it any better, which, to me, is most important.

Right now, I am having fun playing in the Chess club here. Although it seems to be one of the forgotten activities, to me it is one of the more important.

I'm glad to have had this chance to write a message to each of you through this yearbook. I long to get this book which will help preserve a lot of excellent memories of a very nice and interesting year at Leigh.

MY THANKS TO ALL THE STUDENTS AND TEACHERS'

Søren Dalgaard

My name is Maria Maia. I am 17 years old and a senior. I have two brothers, Roberto, who is 16 years old, and Mauricio, who is 14 years old. My father's name is Roberto and my mother's name is Evelina. My father is a businessman and my mother is just a housewife. My family here is Mr. and Mrs. Pat Varkella, both are teachers. I am studying to be a teacher.

I like my school here very much. I also like all the girls and boys who study with me. The American people are very friendly and I like them very much. I like the United States very much and really I hope to come back here again.

My favorite things are: music, beach, play, games, books, and movies.

I like my teachers here very much and they have helped me a lot.

Maria Maia

Maria Maia
Brazil

Roberto Maia
Brazil

I am 16 years old. I live in Brazil (Recife). Here at Leigh, I am a sophomore and I'm taking English, Arts, Spanish and French. I used to have history instead of Spanish but I couldn't understand it.

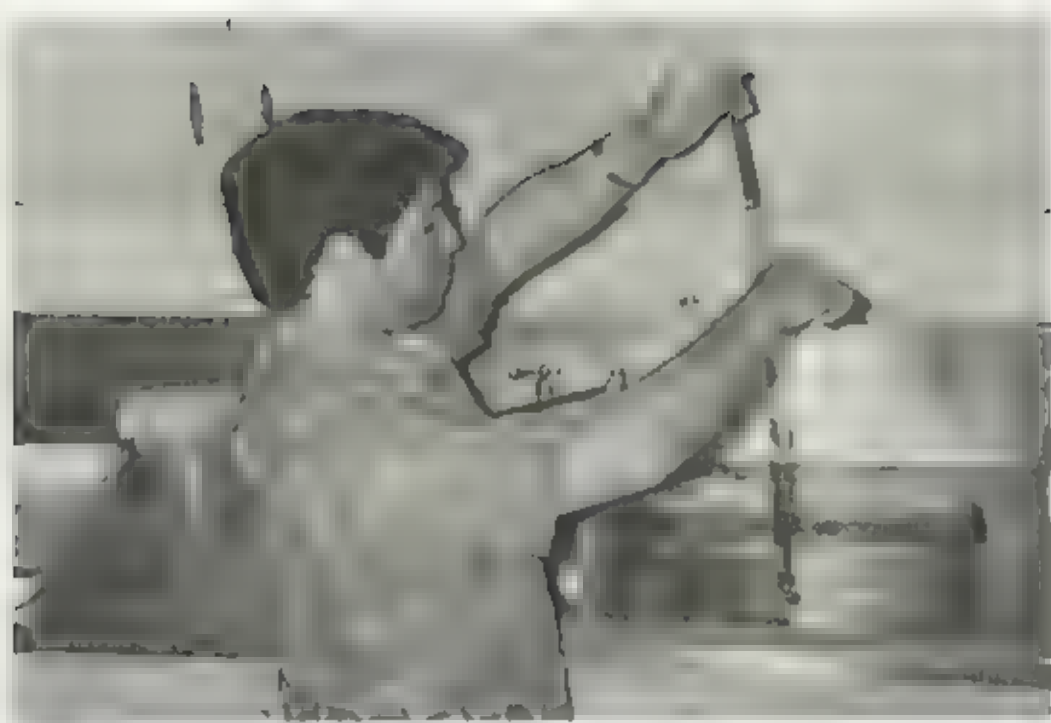

Schools here are very different from the schools in Brazil. We just have a half-day there and if I am a Sophomore, I have to study the subjects they have in this grade. We can't choose like we do here. We also have classes on Saturday and both school systems are good. Yet, here we spend more time at school and have fewer subjects.

Here I'm living with Mr. Pat Vanketta. To come to the U.S., we have to take tests and if we make their tests we are able to come.

This program (Y.F.V.) has improved these last three years. This year we are 670 Brazilian students here in the U.S.

It's very good because we have a wonderful experience knowing a different country, people, language, etc

Roberto Maia

A.S.B. Presidents Spring-Fall

As I look back over this year, the one thing that stands out the most in my mind is the enthusiasm of the students here at Leigh. This schools' spirit and involvement, which is shown by the numbers of students supporting our teams, the increased amount of people running for student government, and the number of students involved in drama, music, and our more academic activities, shows me that the students here at Leigh want to be "involved" and are far from being apathetic.

During the four years I've been at Leigh there has been a change which I feel is important. The students are putting more and more emphasis on the curriculum part of school as is shown by the formation of an ecology club, service projects, and the increased concern for experimentation in the curriculum programs. I sincerely hope that this feeling, along with this school's tremendous enthusiasm will always continue.

The people I've met, the friendships I've made, and the experiences that I have had here at Leigh only reassure me that todays youth will become tomorrows competent leaders.

Sincerely,
Mark Sturges

There are four basic areas in our lives—the mental, physical, social, and spiritual. In order to succeed, a proper balance of these areas must be maintained.

Leigh has attempted to provide us with intellectual and physical stimulation as well as offering an extensive activities program. However, if all we were to do was sit in classes, go to PE and read about activities in the bulletin, we would be living very dull and boring lives. In order to mature intellectually, we must do extra work on our own. In order to develop physically we must exert extra effort on our own. In order to be active socially we must involve ourselves. Self motivation is therefore the key to success in the first three areas.

Spiritual development, however, is where most people fail. Try taking off one of the legs on your kitchen table and see how well it stands. Unfortunately this is what many of try to do—stand on three legs. Leigh does not teach spiritual development. This is something that requires self action. Talk to God, meet Him,—and through Him, know yourself. This is the only way to real success!

Keep the faith,
Rich MacIntyre

The 1969-1970 season saw the Leigh Longhorns consistently at the top of the WVAL. This winning year could not have been achieved without the dedication and effort of all the athletes—from the All-league player to the third string substitute. All took a part; and it is this pride in ourselves and our school, that has made Leigh the best.

Many important lessons are learned about oneself in the test of tough competition. Pride, dedication, courage, mental and physical toughness are a few of them. The athletes in the following pages know them and have benefited from them.

As long as Leigh produces such competitors, it will never be very far from the top.

SPORTS

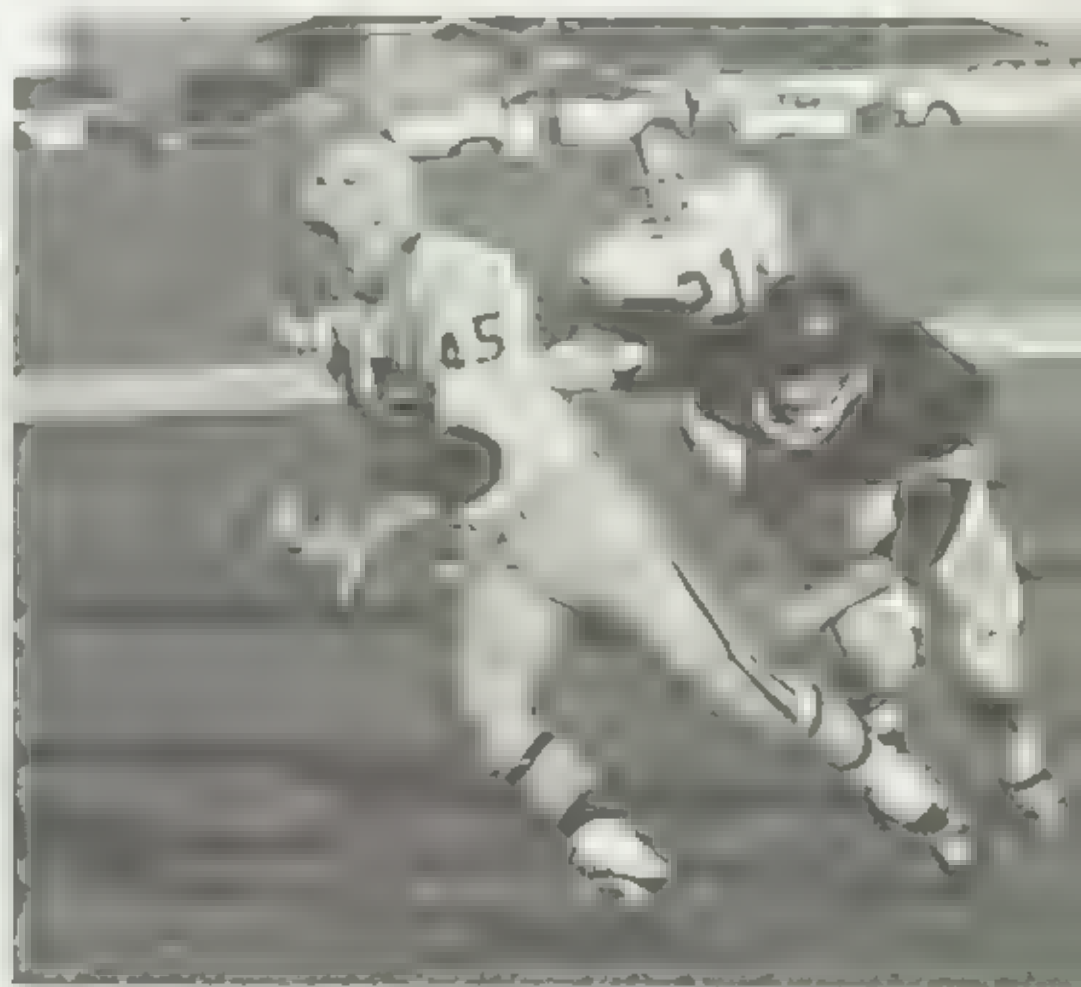

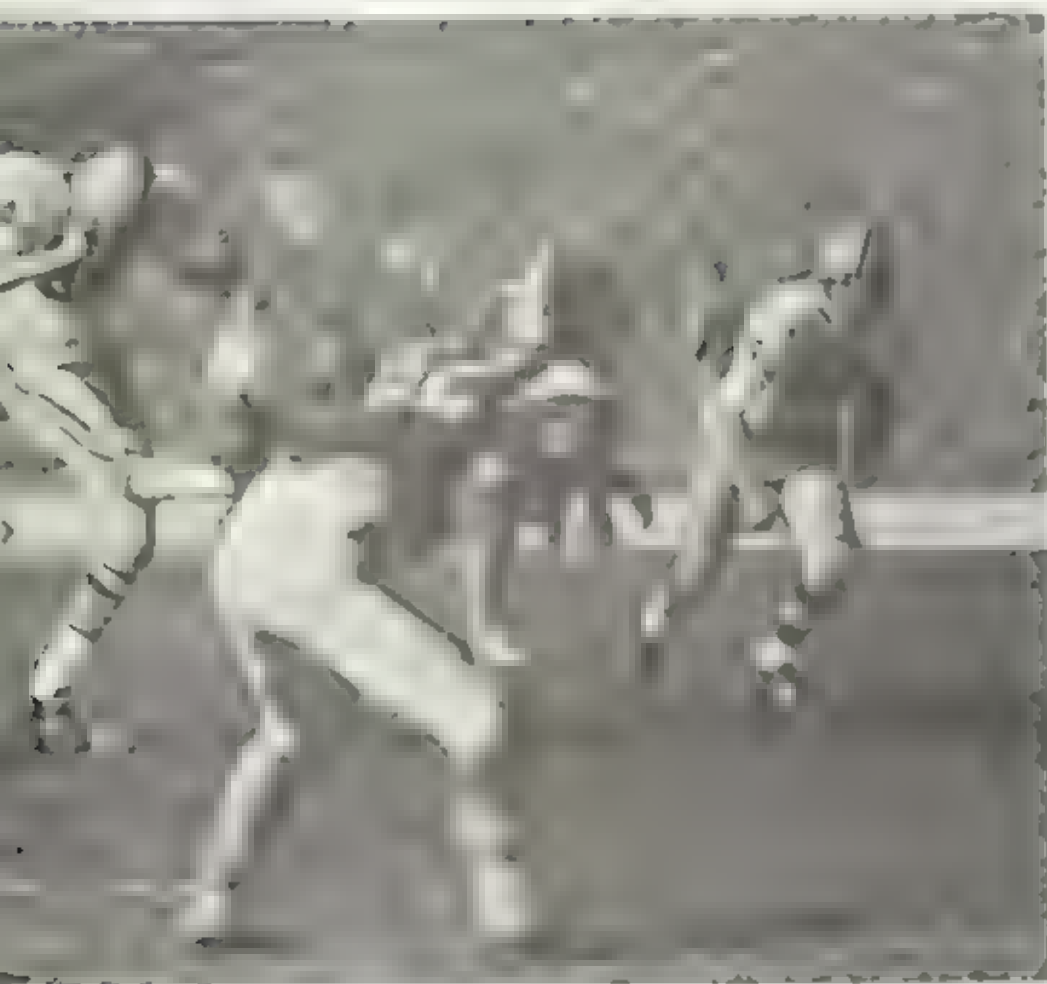

Varsity Highlights 1969

This year, Leigh's varsity football team made a strong comeback in the WVAL league race with a 7-1-1 record, good for second place. Improving greatly over last year's record of 3-6, this year's squad racked up eight wins during the season. A potent offense, lead by all-league players: Mike Franz, Brian Shelby, Bob Hampton, Ron Graham, Steve Oliver, and Gary Murdutt, scored a total of 315 points. A tough defense, lead by all-league players: Ron Stout, Buzz Thomas, Mike Montesano, Jeff McTighe, Ken Padia, and Phil Smyth, stopped opponents from scoring more than 76 points the entire season, the lowest total in the league. The Longhorns showed determination and skill in every player throughout the season. Congratulations on a job well done.

Coach's Message

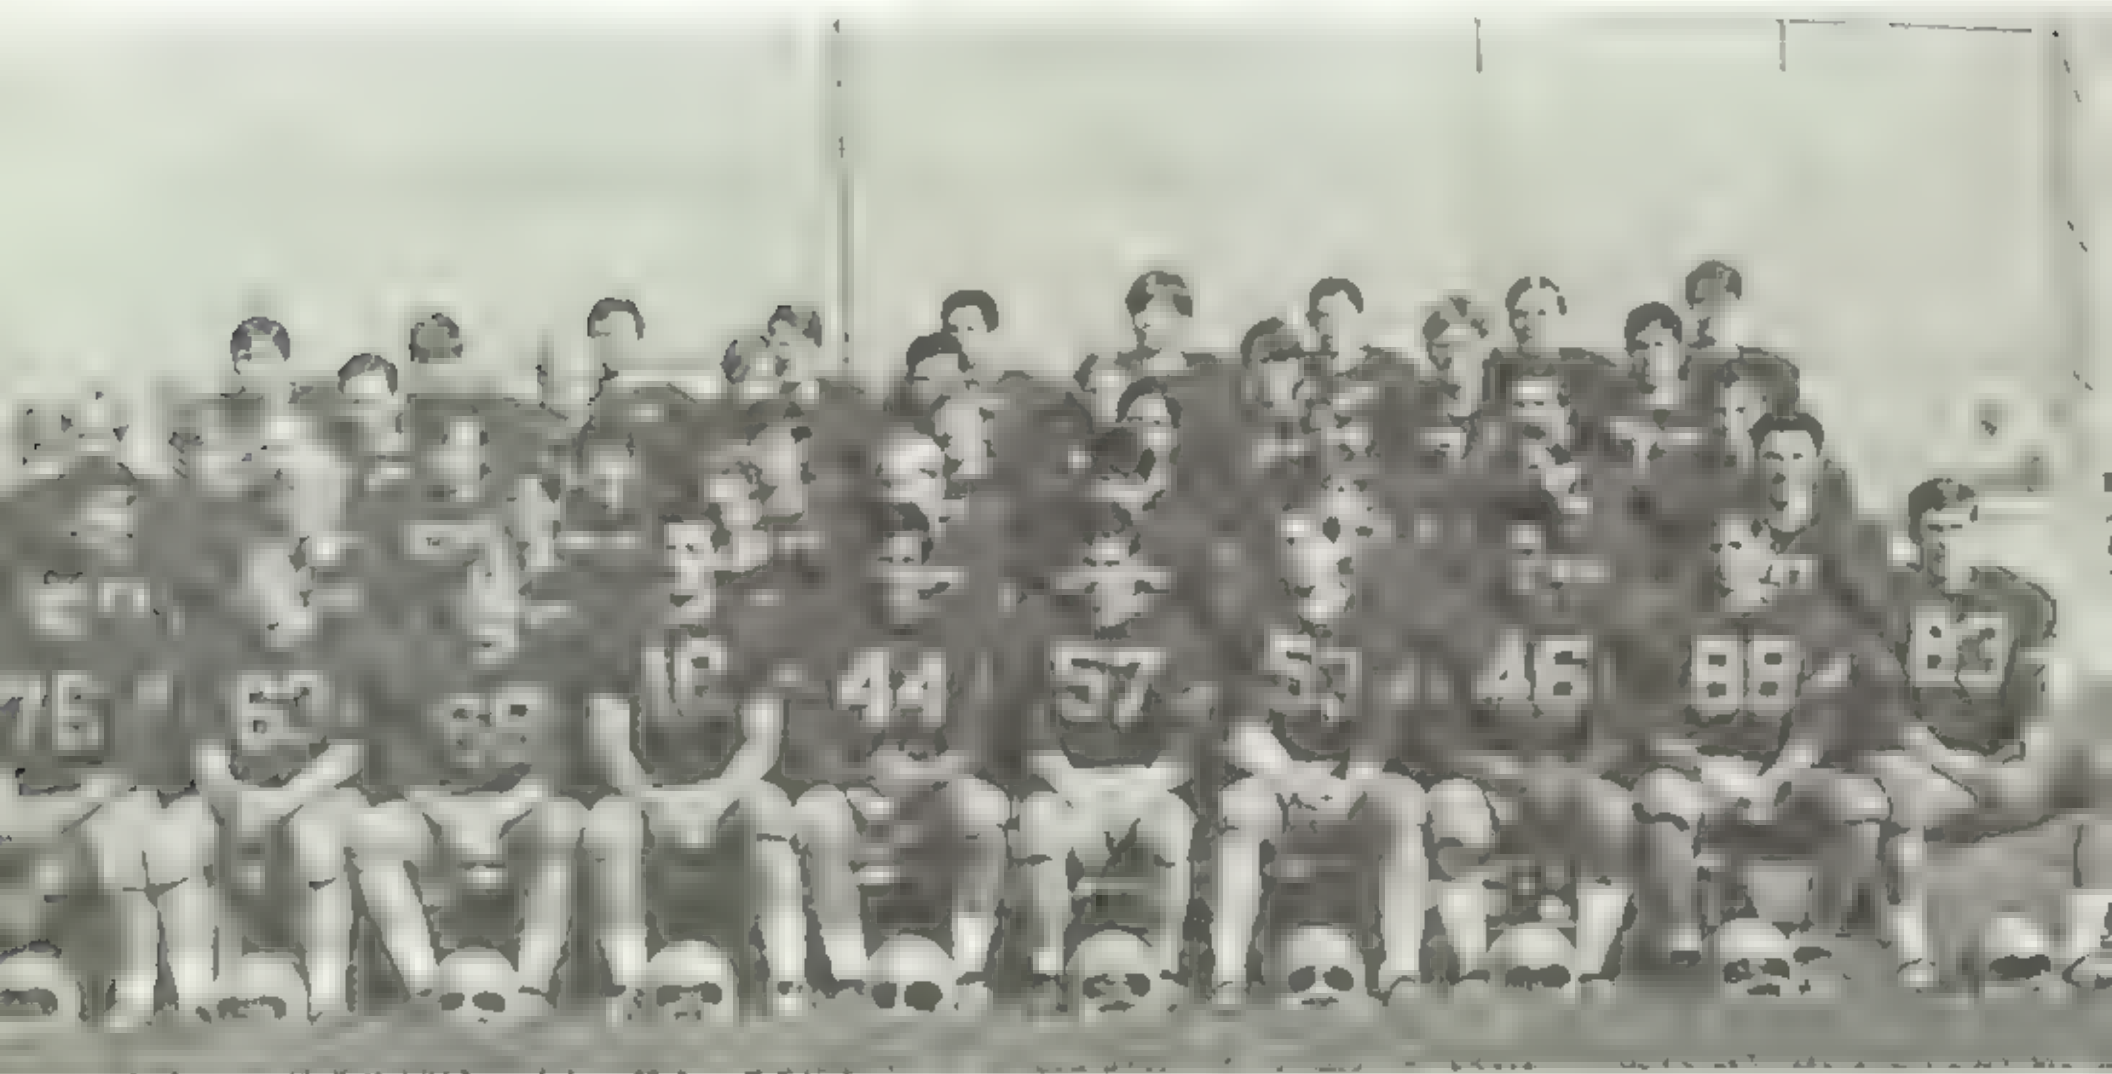

In reflecting back on our season, which was gratifying as well as successful, I would have to credit our success largely to the dedication and unselfish team play of our Senior classmen. The leadership of our Senior classmen was outstanding, they have set the pattern for winning. That pattern is based on "Pride in oneself, pride in one's team, and pride in one's school."

Our Junior class produced many fine athletes who showed that they too are dedicated as well as talented. With renewed vigor and new found leadership, the look for the Longhorns in 1960 is bright.

Coach Galloni

Sophomore Team

BOTTOM ROW (L TO R) Paul Roman, Ken Ries, Jeff Frame
TOP ROW Bob MacIntyre, Joe Heiser, Tony Ireland, Jeff Bembry

Runners charge up the face of the Short Hill Course

The varsity had somewhat disappointing year plagued by injury, illness and just plain bad luck we finished fourth again this year. Jeff Hamilton for the second year in a row was our top runner. Terry Johnson finished the season as our number 2 runner and the most improved runner.

Again our Jr. Varsity team was strong and we took first place in the league. The team was led by Glen Sisk, Fred Osterlund, Mike Crawford, Bob Clarke, Gary Scheler, and many others.

The Soph Team finished third which was quite good considering the fact that several of the sophs. ran on the varsity team.

The Freshmen had a good season and won our league title. Ken Johnson and Ron Cabrera were the team leaders supported strongly by Larry Towner, Paul Kinsey, Brian Glenn.

Next year should be a great season due to the fact that only four of our top 25 runners graduate this year.

COACH LATIMER

Freshman Team League Co-Champs

1st ROW (L TO R) Jere Crawford, Pat Gordon, Robin Giblin, Ken Johnson, Ron Cabrera. **2nd ROW** Steve Jutovich (mgr), Tony Ageno, Dave Beasley, Wayne Sisk, Dennis Twight, Prent Ridley. **3rd ROW** Bob Fox, Paul Kinsey, Rich Fox, Larry Towner, Jim Bryan

Varsity Basketball

Given an outside chance to win the league title, Leigh, after a slow start, swept to an undefeated 15-0 league record and the WVAL championship. Leigh also added the Region III championship and finished fourth in the CCS tournament.

Much credit must be given to the unselfish attitude of all the team members. Their dedication and sacrifice made the successes of the season possible. These young men were fine representatives of their school and community and were possessed of an unflinching desire to be winners.

Many thanks again to the student body and faculty for their fine support, and especially to Mr. Fowler whose faith in the team could only have been an inspiration for all concerned.

Special honors went to.

Bill Scott- Co-Most Valuable Player, first team all League, second team all CCS, and all tournament selection in CCS finals.

Steve Oliver- Co-Most Valuable Player, first team all League, honorable mention all CCS.

Brian Shelby- Most Inspirational Player, Honorable mention all League.

Rich Miller- Most Improved Player, honorable mention all League

Credits

Countless hours have been given by many people to make this book possible. Section editors and staff members have worked hard to bring this book to the student body of Leigh High and I am sure that if you ask them they would say that it is no easy task to publish a yearbook. Personally the work I have put into this book is only a bare beginning to what the members of the staff have put into it. I would like to thank Miss Green our advisor for giving her time and imagination to help make things work smoother and produce a book that will be your memory of High School in future years.

I would like to give a special thanks to the student body who bought A.S.B. cards in order to finance this publication. The student body also served as the source of ideas and inspiration that make up this book.

Mr. Horn and Mr. Deis also deserve due credit for the time and energy they have given to help make this a better yearbook. Mr. Horn was very co-operative many times when what we needed most was co-operation, and Mr. Deis and the photo commission have worked hard to print all the pictures that make this book.

Dave Foster
Editor '69-'70

10 Jan, -
 10 a weird
 and I have
 know all year.
 one summer. Good job.
 Cynady

Jan:
 To a good
 volleyball player
 EE good luck
 next year &
 years to come
 hope I see you
 next year
 have a nice
 summer &
 god bless you
 love
 Danna
 Gwendy

Jan:
 To the best paper
 person I ever saw!
 Jan, I wish I could
 sit with you every day
 in that is a fabulous
 quality you sit by the
 window & you can
 your nose in it & look
 fun! & good this summer
 love Danna
 Gwendy
 Love Always
 Amy
 FR
 2/11/17

Jan:
 To the best I ever
 saw & please you
 to be grateful to you
 always & love a good
 love
 love
 love

Jan
 Good luck & love
 next year, you in
 for having voice in
 your loud class.
 P.E. Gwendy

Jan,
It's been fun P.O.
having you in my
class. Wish you were in
more of my classes though.
Oh well! maybe next year! Have
fun during the summer. Good
luck in everything you do.
Love always,
Kathy
Peterson

JD,

To a weirdo
in her own time
Good Luck

Love,

DDDD

Jan,
It's a beautiful
day I hope you
keep it that
way. Love
J. Lynn

Jan,
Good luck next
year and have fun
summer. I'm
glad you were
in my class. Love
Kathy
Happy
